ECONOMIC/FISCAL/HOUSING COSTS IMPACT ANALYSIS

Creation of this district will result in no economic impact on the County's budget. The creation of this district is a subdivision requirement pursuant to Chapter 28 of the Code of Miami-Dade County. The developer is required to fund the district's first year's lease of the equipment, electricity costs to operate the system, and cover all costs incidental to creation and administration incurred by Miami-Dade County. Furthermore, to install the street lighting as part of the development's infrastructure is the most effective, cost-saving, and least disruptive means of providing the improvement. Additional cost savings are realized from processing a district with a single owner (the developer) rather than trying to achieve a consensus from an established community through a special election.

After the first year, the economic impact on the private sector will be a perpetual annual special assessment for the cost of street lighting to all property owners within the district. The Florida Power and Light Company is the owner of the system and therefore will derive revenues from it.

At this time there will be no increase or decrease in County staffing due to this district. The private sector may increase its staffing levels to provide the service requirements created by this special taxing district.

Estimated Initial Billing: November 2006. Assessment billed annually as an itemized portion of the annual tax bill.

	<u>First Year</u>	<u>Second Year</u>
Estimated Total District Cost:	\$11,330	\$2,450
Method Of Apportionment:	Front Footage	
Estimated Annual Assessments:		
Per Assessable Front Foot		\$0.92
For A Typical Interior Single Family Lot	Cost to be	\$92.11
For A Typical Corner Single Family Lot	provided by the petitioners	\$138.16

The annual assessments shown above are representative of costs for typical single family lots within this district.

State or Federal grants are not applicable to this special taxing district.

Each street lighting special taxing district is unique due to its geographical boundaries, affected property owners, and level of services to be provided. Creation of a new ordinance to provide this service is the best and most cost-effective method to achieve this benefit.

In accordance with the requirements of Chapter 28 of the Code to provide street lighting in new sub-divisions through the creation of street lighting special taxing districts, and in compliance with the provisions of Section 18-3 (c) of the Code, I have reviewed the facts submitted by the Public Works Director and concur with his recommendation that this district be created pursuant to Section 18-2 of the Code.

**REPORT AND RECOMMENDATIONS
ON THE CREATION OF COUNTRYSIDE ESTATES
STREET LIGHTING SPECIAL TAXING DISTRICT
MIAMI-DADE COUNTY, FLORIDA**

Pursuant to Chapter 18 of the Code, and as a result of a detailed investigation of a duly petitioned for special taxing district, the following facts are submitted by the Public Works Department Director concerning the creation of Countryside Estates Street Lighting Special Taxing District.

1. BOUNDARIES OF THIS DISTRICT

The proposed district is located entirely within a portion of unincorporated Miami-Dade County, and the boundaries, as set forth in the petition, are as follows:

A portion of Section 14, Township 57 South, Range 38 East, Miami-Dade County, Florida; being more particularly described as follows:

The NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ less the west 35.00 feet and less the north 25.00 feet (a.k.a. Countryside Estates, Tentative Plat # T-21879).

The boundaries are shown on the attached plan entitled Countryside Estates Street Lighting Special Taxing District and hereinafter referred to as Exhibit A.

2. LOCATION OF THE INSTALLATIONS TO BE CONSTRUCTED

The facilities to be provided under the district will consist of sodium vapor bracket-arm street lights mounted on concrete poles located within the street right-of-way. The spacing of the street lights will be between approximately 200 to 240 feet.

3. ESTIMATED COST FOR THIS DISTRICT

As provided for under Section 18-2 of the Code, the property owner (the developer) within the proposed district shall guarantee payment of all costs and expenses incidental to the creation of such district and shall pay the entire cost of providing street lighting within the district for the first year. The City of Homestead will install the lights, poles and service lines at its expense. However, the special taxing district

(the developer) may be required to pay a differential cost if rapid construction techniques cannot be used on this project. This cost is estimated and shown as City of Homestead Utility cost in the district's cost estimate.

4. **ESTIMATE OF THE ANNUAL EXPENSE FOR MAINTENANCE, REPAIR AND OPERATION OF THIS DISTRICT**

The facilities provided will remain the property of the City of Homestead, which will be responsible for the maintenance of the light standards, fixtures, lamps, and all connecting service lines. The cost of street lights in this district will be continual and is based on a preliminary estimate using the City of Homestead Street Lighting Rate Schedule approved by the Florida Public Service Commission, a copy of which is attached. The district will pay the City of Homestead a monthly rental fee on each installation. There will be 12 lights and 12 pole rentals served by underground wiring for an annual cost of \$2,030 for the first and second years.

As provided by Chapter 18 of the Code of Miami-Dade County, the petitioner shall advance the first year's estimated street light costs and pay all costs incurred to create and maintain the district for its first year of operation. The district's property owners shall pay these costs for the second and succeeding years. The engineering and administrative costs involved in establishing and maintaining the district are estimated to be \$2,750 the first year and \$150 the second year. The cost of handling the billing, collecting the assessment, and processing the payments to the City of Homestead is estimated to be \$2,070 the first year and \$150 the second year. Additionally, contingency funds in the amount of \$1,480 the first year and \$120 the second year are provided.

ESTIMATED ANNUAL COSTS

	<u>First Year</u>	<u>Second Year</u>
12 – 9,500 Lumen Sodium Vapor Luminaires On Concrete Poles	\$1,810	\$1,810
Annual Fuel Adjustments (Based on 5,904 KWH at \$0.0284 Per KWH)	170	170
Franchise Cost (Based on 2.5 % of \$1,980)	<u>50</u>	<u>50</u>
TOTAL STREET LIGHTING SERVICE COSTS	\$2,030	\$2,030
CITY OF HOMESTEAD UTILITIES COST*	3,000	0
ENGINEERING & ADMINISTRATIVE COSTS*	2,750	150
BILLING, COLLECTING & PROCESSING COSTS*	2,070	150
CONTINGENCIES*	<u>1,480</u>	<u>120</u>
TOTAL COST COVERED BY PETITIONERS	\$11,330	
TOTAL COST TO DISTRICT EACH YEAR THEREAFTER*		\$2,450

*To be adjusted from actual experience.

5. PROCEDURE

Following the creation of the district by the Board of County Commissioners, and upon receipt of the payment by the developer of the total estimated cost for the first year as specified in Item 4 above, the County Manager shall cause the petitioner's plat to be placed on a Commission Agenda for acceptance and subsequent recordation.

Miami-Dade County may then enter into an agreement with the City of Homestead, form attached, wherein Miami-Dade County will pay to the City of Homestead any costs associated with the street light installation, and monthly payments for the annual cost of the street light service estimated at \$2,030 or approximately \$169 per month. These amounts will be charged during the first year's operation against funds advanced by the petitioners. Based on front footage, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost each year thereafter.

6. CONFORMITY TO THE MASTER PLAN OF MIAMI-DADE COUNTY

The proposed district conforms to and in no way conflicts with the Comprehensive Development Master Plan of Miami-Dade County (see attached memorandum from the Department of Planning and Zoning).

7. RECOMMENDATION CONCERNING THE DESIRABILITY OF THIS DISTRICT

The need for street lighting in Miami-Dade County is apparent. Residents and property owners of Miami-Dade County continue to demonstrate their desire for street lighting through numerous petitions and personal requests.

In my opinion, the proposed street lights will provide special benefits to property within the district exceeding the amount of special assessments to be levied.

8. ESTIMATE OF ASSESSMENT AGAINST BENEFITED PROPERTY

As was determined in Item 4 above, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost the second year and each succeeding year thereafter. The annual assessments shown below are representative of costs for typical single family lots within this district.

Estimated Annual Assessments:	<u>First Year</u>	<u>Second Year</u>
Per Assessable Front Foot		\$0.92
For A Typical Interior Single Family Lot	Cost to be provided by the petitioners	\$92.11
For A Typical Corner Single Family Lot		\$138.16

These costs are based on a preliminary estimate of 2,660 total assessable front feet and will be adjusted from actual experience.

9. RECOMMENDATION

I recommend that Countryside Estates Street Lighting Special Taxing District be created pursuant to Section 18-2 of the Code, which provides for the creation of special taxing districts for street lighting in new subdivisions. The creation of the district will be subject to Commission approval; no election will be necessary as 100 percent of the property owners signed the petition. Following adoption of the creation ordinance, it is further recommended that the Board adopt the district's Preliminary Assessment Roll Resolution. Adoption of this resolution will enable the Miami-Dade County Tax Collector to provide the funding necessary to administer the district, as well as provide funds for payment to the City of Homestead for the district's monthly power bills for the second and succeeding years. In the event actual costs are lower than the costs estimated, the Director of the Public Works Department or his designee shall adjust and decrease the front foot rate of assessment. In the event actual second year costs are higher than the costs estimated, the County Manager may, at his discretion, cause to be prepared a revised preliminary assessment roll and file the same with the Clerk of the Board for a scheduled public hearing to adopt the revised assessment roll. The ordinance creating the district shall take effect ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, it shall become effective only upon an override by the Board. My office will also be available to answer any questions from the public or your office in regard to the financial

and/or engineering facts of this project. We further recommend that the County Manager forward the attached report to the Board of County Commissioners after he has reviewed it and concurred with our findings.

MEMORANDUM

To: Aristides Rivera, P.E., P.L.S., Director
Public Works Department

Date: January 15, 2002

From: *Diane O'Quinn Williams*
Diane O'Quinn Williams, Director
Department of Planning and Zoning

Subject: Street Lighting, Maintenance of
Landscape, Walls Adjacent to
Double-Frontage Lots and Lakes
Special Taxing Districts

Section: As Required

District: As Required

Council: As Required

Effective September 5, 2001, all tentative plats in the unincorporated area of Miami-Dade County submitted to the Land Development Division of the Public Works Department, must be accompanied by a properly executed petition for all applicable special taxing districts including, but not limited to street lights, maintenance of landscape, walls adjacent to double frontage lots, entrance features and lakes. Final Plats will not be presented to the Board of County Commissioners for consideration until the applicable special taxing districts are created, and all fees have been paid. In that regard, to ensure expeditious processing, this Memorandum may serve as approval for certain future special taxing district application requests as being consistent with the intent and purpose of the adopted 2005-2015 Comprehensive Development Master Plan (CDMP). Policy 4A – Capital Improvement Element states: Appropriate funding mechanisms will be adopted and applied by Miami-Dade County in order to assure the fiscal resources to maintain acceptable levels of service. Such funding mechanisms include special tax districts, municipal taxing service units, local option taxes, user fees, local gas tax, general obligation bond, impact fees, and special purpose authorities, or others as appropriate and feasible (Adopted Components as Amended through April 2001, page IX-10). The provision for services over and above minimum for neighborhoods and communities may be accomplished through the special taxing district as may be prescribed by the code.

The Department of Planning and Zoning (DP&Z) has no objection to a blanket approval with condition to establish future special taxing districts as limited to requests for street lighting, landscape maintenance, walls adjacent to double-frontage lots and lake maintenance districts. The previously noted special taxing districts may be established on the condition that the DP&Z review all landscape maintenance districts for compliance with plantings in public rights-of-way and lake maintenance districts for consistency with Landscape Code (Chapter 18A) Section 18A-6(L) Storm Water Retention/Detention Areas.
